

# BROMPTON

- **Description:** Brompton is a unique leather produced on beautiful fresh steer hides. This leather is made with innovative techniques and state of the art technology to impregnate the leather with a high percentage of wax that provides the hides with tremendous "burst" or pull-up. When upholstered, any area of tension will show up as a much lighter color providing the epitome of a hand rubbed antique leather.

	Thickness:	1.2-1.4mm
	Classification:	Full Grain
	Type Dyeing:	Aniline
	Type Finish:	"O" Wax and Oil pull-up

- Customer Care...Keep furniture dust and dirt free. Dusting and vacuuming with a soft brush. Deal with spills and soil gently and quickly (do not rub or scrub). Use a clean cloth or sponge. If necessary, use clean distilled water only and let dry naturally.
- Do not use solvent or any product involving solvents to clean leather furniture
- Natural wrinkles, skin folds, tick bites, cleanly healed scars and other natural range markings are authentic characteristics found only in the very best leather. Like any natural product, grain pattern and color may vary from hide to hide and within each individual hide
- Expect some color variations from hide to hide due to the aniline state of the product. Some color fading may occur if the leather is exposed to direct, intense light and heat.
- Hair oil, hair gels, body oil, body lotions, and some medications can have a chemical reaction to leather that can cause staining, fading, discolorations, and color changes.
- Regular care and maintenance is required to ensure performance and longevity of leather. For our leather furniture, use only our leather cleaning products available from your dealer.
- Warranty for Residential Use Only

**Type: "O"**

A = Aniline, N = Nubuck, O = Oil/Wax, P = Protected
