

POLO CLUB

(Santa Fe Collection)

- **Description:** Polo Club is made on European hides offering a beautiful Rustic look. The process of tanning is made with innovative techniques with state of the art technology to impregnate oils and waxes. This process provides the hides with a tremendous "burst" or "pull-up effect. When upholstered areas of tension will show lighter in color. Natural marking of barb wire, bug bites, scratches and stretch marks is what makes this leather unique. A rich Patina will develop as you enjoy the comfort of this leather.

	Thickness:	1.2-1.4mm
	Classification:	Full Grain
	Type Dyeing:	Aniline
	Type Finish:	“O” Wax and Oil pull-up

- Customer Care...Keep furniture dust and dirt free. Dusting and vacuuming with a soft brush. Deal with spills and soil gently and quickly (do not rub or scrub). Use a clean cloth or sponge. If necessary, use clean distilled water only and let dry naturally.
- Do not use solvent or any product involving solvents to clean leather furniture
- Natural wrinkles, skin folds, tick bites, cleanly healed scars and other natural range markings are authentic characteristics found only in the very best leather. Like any natural product, grain pattern and color may vary from hide to hide and within each individual hide
- Expect some color variations from hide to hide due to the aniline state of the product. Some color fading may occur if the leather is exposed to direct, intense light and heat.
- Hair oil, hair gels, body oil, body lotions, and some medications can have a chemical reaction to leather that can cause staining, fading, discolorations, and color changes.
- Regular care and maintenance is required to ensure performance and longevity of leather. For our leather furniture, use only our leather cleaning products available from your dealer.
- Warranty for Residential Use Only

Type: “O”

A = Aniline, N = Nubuck, O = Oil/Wax, P = Protected
