LOOKBOOK

Since 1989

Omnia was born from two Italian families with a vision to combine European leathers with American craftsmanship. Over 30 years ago, they sourced fine quality 100% top grain hides, from some of the oldest tanneries in the world, and opened a fully integrated manufacturing facility in California.

Since then, another generation has taken the helm and Omnia has grown leaps and bounds. The ever-growing style assortment, outstanding leather offering and superior quality have been embraced nationwide by retailers, designers and hospitality firms.
